CAREER OBJECTIVE

Computer Science undergraduate specialising in AI and Computer Vision, with hands-on experience in Python, OpenCV, and deep learning. Passionate about building intelligent systems that solve real-world problems, Driven by curiosity and a continuous learning mindset.

EDUCATION

B.E. Computer Science & Engineering, Rajalakshmi Institute of Technology | Autonomous *Present*

HSC (XII), Sree Vivekananda Matric Higher Secondary School | State Board *Mar 2023*

SSLC (X), Sree Vivekananda Matric Higher Secondary School *Mar 2021*

INTERNSHIP

Computer Vision Intern, Wenexo Technologies Pvt. Ltd., Nagercoil *Nov 2025 – Dec 2025*

Python | Computer Vision | OpenCV | MediaPipe

- Gained hands-on experience in image processing, feature extraction, and real-time object detection using OpenCV.
-

PROJECTS

EduFocus – Classroom Attention Analysis *Jan 2026 – Present*

Python | OpenCV | PyTorch | MobileNetV2 CNN+LSTM | Flask

- Developed a real-time AI system using MobileNetV2 CNN+LSTM to monitor and classify student attention levels during live classroom sessions.
- Implemented a privacy-protected dashboard featuring face blurring, zone-wise heatmaps, and automated PDF report generation.

Plastic Waste Classifier *Jul 2025 – Nov 2025*

Python | Streamlit | Deep Learning

- Built an AI-powered web application that classifies plastic waste types from uploaded images in real time.
 - Added secure user login and an interactive recycling analytics dashboard for insights and reporting.
-

SKILLS
